YOUR PIONEERS MIND

The groundbreaking all-in-one solution for rapid weighing of vehicles up to 3,200kg of total weight!

The **inno!weight® weighing system** with a total capacity of 3,200kg consists of four wheel load scales, an intuitive app as visualization and is safely stowed in a trolley case for easy transport.

Due to the lightweight die-cast aluminum structure and low profile design, inno!weight® wheel load scales do not require additional ramps and can be easily moved and quickly repositioned.

Standard batteries for power supply provide flexibility in use with a run time of over 200 hours.

Connection cable? Say good-bye to that!

We use on an intelligent floating master BT-BLE standard for a stable radio connection with greater ranges to your mobile device.

Use the app (available for iOS, Android and Windows) to save weighing records on your mobile device and create comprehensive and transparent documentation. Want to view the record at a later time? No problem! Thanks to the integrated database, records can be retrieved at any time and reprinted or forwarded.

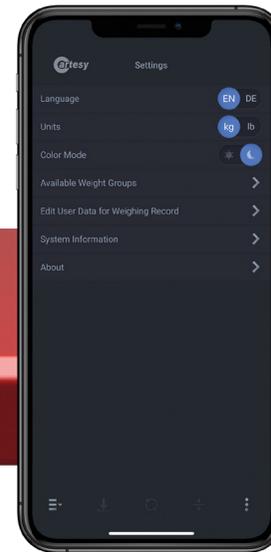

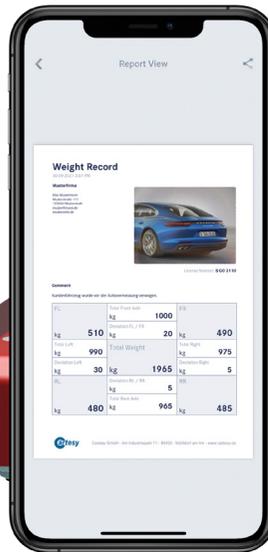

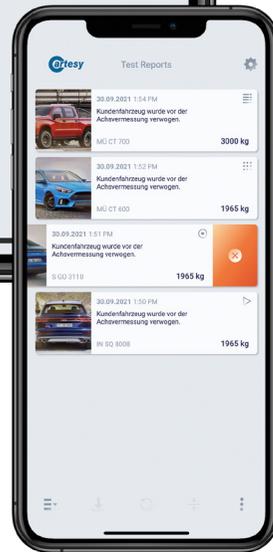

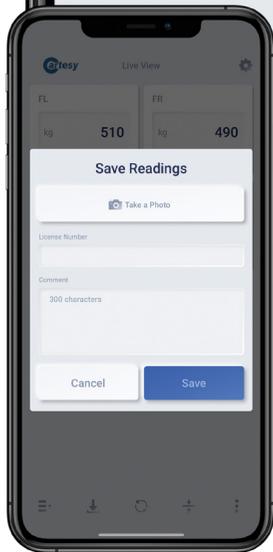

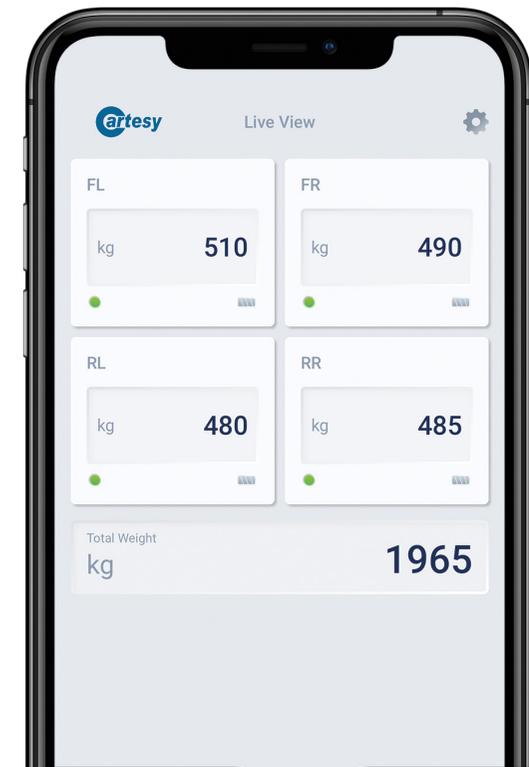

TECHNICAL DATA

CATEGORY	UNIT	VALUE
Measuring Range per Scale	Nominal Load in kg	0 - 800
Overload Resistance	% of FS	150
Operating Temperature	Degrees Celsius/Fahrenheit	-10 to +60/14 to 140
IP Protection Class	IP	42
Power Supply	2x AA battery [V]	1,5
Battery life	h	200
Radio	2,4 GHz BT-BLE	
Application	On level and solid ground	
Dimensions Scale (L x W x H):	mm	380 x 380 x 33
Dimensions Case (L x W x H):	mm	425 x 275 x 575

Smartphone, tablet or PC? You decide!

Features:

- Available for iOS, Android and Windows
- Modes: Live, Center of Gravity, Details View, Axle View, Corner Balancing
- Light mode and dark mode
- Tare-function
- Battery status
- Selection between kg / lb / % unit
- Language selection: English / German
